

WALL NET SLIDER GUIDANCE

Detail

Wall Net Slider installation is available for increasing the number of participants taking part in recreational volleyball sessions at your club.

Please Note: The equipment is for recreational use and not suitable for team training sessions who may wish to progress to regional league and higher

One hall length net enables volleyball to be played over 4 badminton courts (4v4). This allows 32 participants to be engaged at once opposed to the traditional 6v6 court engaging 12 participants.

- Click [HERE](#) to view a video of how the net is installed in a sports hall
- Click [HERE](#) to view the technical specification of the equipment

Installation

Please Note: Only 33m Nets are supplied with the installation – custom length nets can be purchased at an additional cost.

To install the wall net slider within the sports hall the following adaptations will be made:

- 2 base plates will be bolted to the floor (1 at each end) which are 60mm in diameter. They will have a key hole which is 15mm in diameter for the slider to fit into.
- 2 Wall plates with prongs wall slider to hook onto will be bolted or chemically fixed to the wall at 2.5 metres.
- To maintain tension a free standing support post is included to ensure the net is held at a consistent height for the length of the hall.

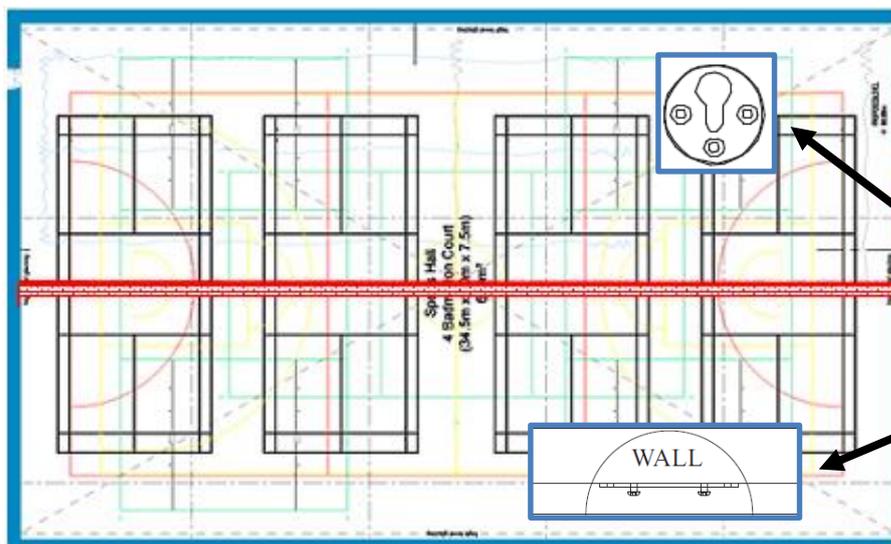

Cost to club

£200 partnership funding to be provided by the applicant

Total value of project

Equipment: £708

Delivery and Installation: £112 – **Total cost - £820.00**

PROPOSED LAYOUT

For a standard Sport England 18m x 33m 4 Badminton Court Hall

Position of 2 base plates located on the sports hall floor

2 brackets attached to walls (2.5m high). The brackets are high and attached by 2 bolts into the wall
